

BABYTRON

Whitepaper V1

1. Team assemble, project discussion and coin making
2. Max supply, Total supply and Circulating supply
3. Liquidity and public supply
4. Marketing
5. Listings
6. NFTs
7. Metaverse

Whitepaper V2

1. Contract migration and AI
2. Own mainnet
3. BABYTRON Ecosystem
4. Smart contracts
5. Open- source blockchain based operating system
6. Method of payment for e-commerce worldwide
7. BABYTRON Bank and ATMs worldwide

1.1 Team assemble, project discussion and coin making

After successfully assembling the world class team we have discussed the plan of full project and our own mainnet so previously to raise fund through presales we have made the token on (Binance Smart Chain, BEP-20).

1.2 Max supply, Total supply and Circulating supply

1.2.1 Max supply

The total supply of the coin is **$125 * 10^{**} 15 * 10^{**} 5$ i.e 125 quadrillion**

We have decided to burn **92% initially** from the max supply to give a boost in price when it will be launched.

The remaining coin is only **8% i.e 10 quadrillion**

1.2.2 Total supply

.Total supply of coin is only **10 quadrillion**

From remaining 8% i.e 10 quadrillion we will add 70% **7 quadrillion** to liquidity and rest 30% **3 quadrillion** will be in public hand

1.2.3 Circulating supply

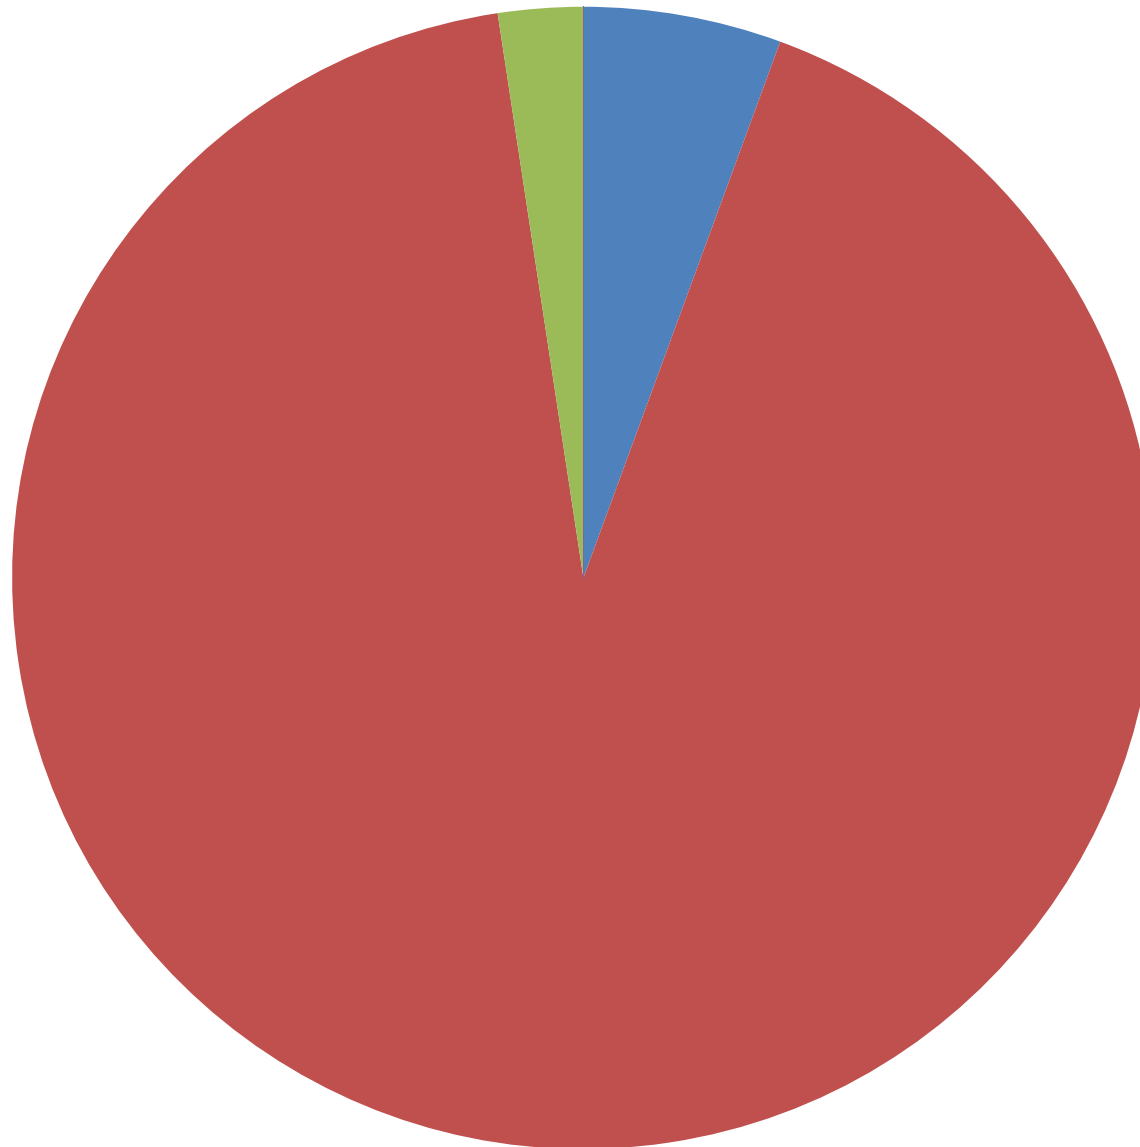

Circulating supply is only **3 quadrillion**

Now from that 30% public supply 95% will be sold in presales and if not sold then **burned**

only **1% for teams** and 4% for marketing, airdrop and promotings

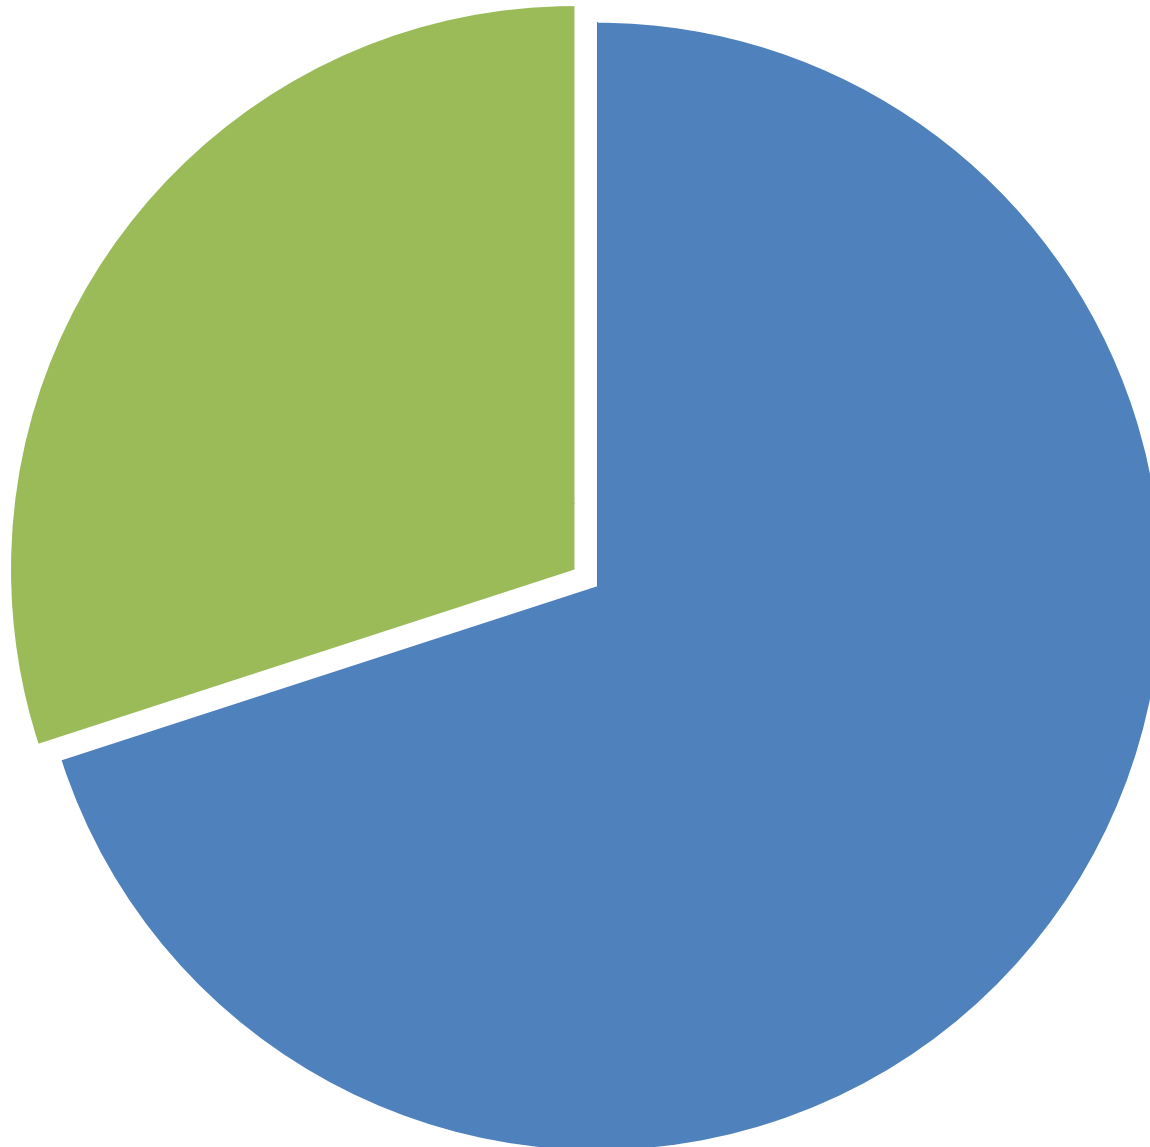

Note:- Not even the team will hold extra token and will burn all the extra coins

**Max supply of coin
125 quadrillion**

- Liquidity 5.6%
- Burn 92%
- Public 2.4%

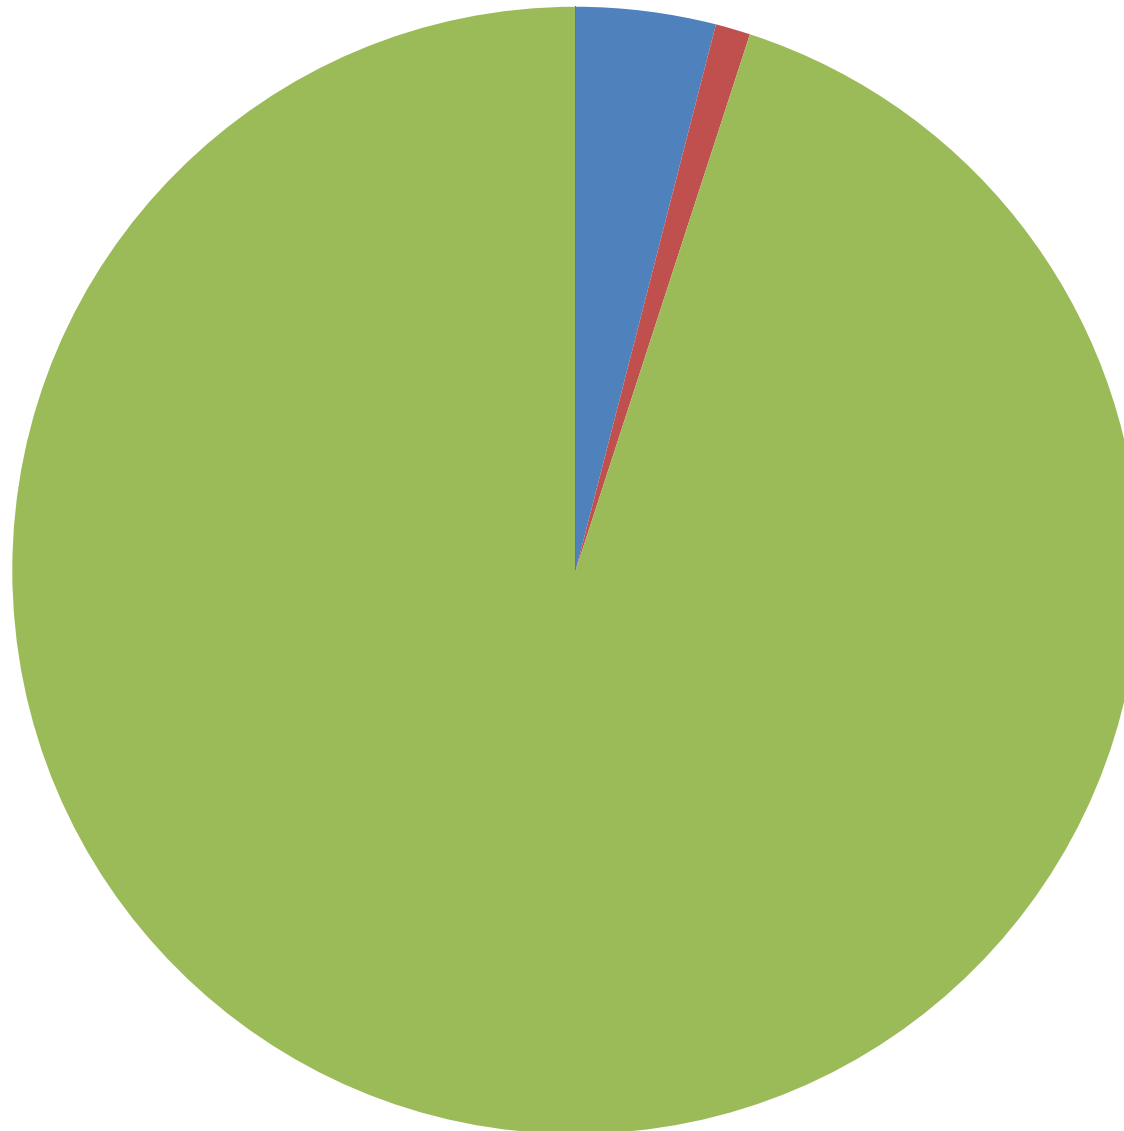

**Total supply of coin
10 quadrillion**

■ Liquidity 70%

■ Public 30%

**Circulating supply of coin
3 quadrillion**

- Promotions, Airdrops 4%
- Team Holdings 1%
- In public hand 95%

1.4 Marketing

We are going to organise the marketing of **BABYTRON** worldwide by contacting the promoters of different- different countries like Social media handlers, youtubers and we will also mail personally to the world big investors to raise fund for **BABYTRON**

1.5 listings of exchanges

We will list the **BABYTRON** to top 25 Exchange so that it will be safe for our investors because of high liquidity. Some of them are **Binance, FTX, Coinbase, Kraken, Kucoin, Gate.io, Huobi global, MEXC, Lbank, IndoEx** etc..

BABYTRON is a non-profit organization that's why the team are holding in very small amout of BABYTRON

1.6 NFTs

We have decided to create **BABYTRON** NFTs.

With the increase in the popularity of NFTs worldwide we have also decided to create a blockchain platform for Art museum where the collection of world famous Arts will be kept or converted digitally to sold by **BABYTRON** coin to raise the market capital of **BABYTRON**

1.7 Metaverse

We are going to create the metaverse land where everyone can buy it with the **BABYTRON** coin.

We have also decided to distribute 10% of total land to our Top investors and holders.

We all are going to see a huge pump after the NFTs and Metaverse project because of the high market capital gain in BABYTRON coin

babytron.network

WhitePaper V2

Note: we are going to work according to whitepaper V2 only after the successful completion of whitepaper V1

2.1 Contract Migration

We are going to migrate the contract where 1 **BABYTRON** price will be **0.01\$**. This is because in the next step we are going to move towards our own mainnet so too much supply is necessary to reduce.

2.1.2 Artificial Intelligence (AI)

As we know that the world is accepting web 3.0 and the upcoming revolution is web 4.0 which is also known as “intelligent Web” or “smart Web”. It will be based on Artificial intelligence(AI) and we guaranteed that **BABYTRON** will be a huge part of it because of our AI projects.

Note:- AI projects will began just after the contract migration or with the mainnet programme

babytron.network

2.2, 2.3, 2.4 and 2.5

2.2 Own mainnet

2.3 Babytron Ecosystem

2.4 Smart contracts

2.5 Open- source blockchain based operating system

The full explanation about the own Mainnet, Ecosystem, Smart contracts Open- source blockchain based operating system, proof-of-stake and everything will be explained deeply in WhitepaperV2.

We are going to develop the **BABYTRON** Ecosystem whose main motto is **Decentralise the Future World**. All of these aim to be safe to use and reliable, and there is no need for middlemen such as banks or agencies.

babytron.network

2.6 Method of payment for e-commerce worldwide

We all know that the world is accepting crypto slowly so, next step will be going to work on payment method for E-COMMERCE websites by **BABYTRON** coin which can give flat 5% cashback when shopping with **BABYTRON** coins.

2.7 Babytron Bank and ATMs worldwide

As we know that crypto can be the best payment method for the future, so according to the plan we will open a banking service and ATMs worldwide where you can exchange **BABYTRON** with the Fiat currency.
